WEEKLY REPORT FOR PERIOD ENDING 19 JULY 1988

I. Progress Report on Tasks Assigned by the DCI/DDCI:

II. Items or Events of Major Interest that have Occurred During the Preceding Week:

A. TECHNICAL GROUP:

(1) SECOND (Security Contractor Data System). The SIMS-SECOND Interface went IOC on 12 July. Placing the interface in production will reduce the keystrokes needed by OL/SS personnel to input industrial clearances. Prior to IOC, [redacted] (TG/IMSS/OL) met with OS personnel to finalize the testing. In addition, [redacted] (OS) met with [redacted] (OIT/DBCC) to review and update the DBCC nightly run-sheet to be used by DBCC in processing the SECOND database interface. [redacted]

(2) [redacted] accompanied the OL/ADP Working Group personnel to the WANG Federal Systems building to view the WANG VS product line. The WANG representative provided the group with a short "history to present" presentation and also provided a demonstration on several WANG products. The information presented at this forum was beneficial to the working group members and will aid them in present and future decisions concerning WANG products. Demonstrations of several items in their product line were seen, including the VS mini-computer hooked to an IBM mainframe. [redacted] contacted Ms. Culbertson after the meeting to set up another demonstration to see PL/1 on the Wang VS and to allow some of [redacted] personnel to see VS performance with multiple users. [redacted] will be attending another demonstration on Thursday, 21 July. [redacted]

WEEKLY REPORT FOR PERIOD ENDING 12 JULY 1988

25X1 (3) [] attended a demonstration of a Kurzweil
25X1 voice input system in [] (Supply Division Conference
Room) on Monday, 11 July 1988. The representative gave a
background on size and range of a vocabulary and how the
vocabulary could be divided into words only applicable in
certain situations. He then demonstrated how to use a handset
and a microphone. The demonstration ran smoothly, but it was
noted that his voice changed from normal conversation when
using the machine. A hands-on review of the system would be
required before the system would be recommended for purchase.

25X1 []
25X1 (4) [] prepared a memo concerning a Local Area
25X1 Network (LAN) []
25X1 suggesting a WANG VS mini-computer for the LAN. The memo was
distributed to all members of the ADP Working Group on Monday,
11 July 1988. []

B. PLANNING:

25X1 (1) In response to a request from the Executive
Assistant to the DDA, IMSS summarized information from OL
components regarding each of ten transactional costs issues of
concern to the DA. The joint OL response addressed
suggestions proposed from around the Agency regarding OL
services. Other DA offices will also contribute regarding
their services for a joint DA report. []

25X1 (2) In response to a request from the DA Management
Staff, IMSS collected and consolidated information from OL
components regarding major drivers of overtime costs, steps
taken by OL to reduce overtime costs, and suggestions for
containing overtime costs. A joint OL reply was forwarded on
15 July. []

25X1 (3) A dry run of the OL Quarterly for the third quarter
25X1 FY88 was held on 15 July. The Quarterly, which will be held
25X1 on 28 and 29 July at the Hqs. Auditorium []
[] respectively, will present briefings on the []
[] the Co-OP Program in OL, Removal of Asbestos, a video
tour of the New Headquarters Building, the Practical Impact of
CLAS Packages coming on-line 1 October 1988, and Personnel
Highlights.

EO
What's the impact???

C. CLAS:

(1) BARS-CLAS representatives met on 18 July with Cullinet to discuss delivery schedules for 1.3 Funds Control. This meeting is a follow-up to the 24 June meeting in Westwood, MA. in which Cullinet asked for additional time to prepare their cost proposal on "single point of entry" and target delivery dates for added funds control functionality.

(2) Cullinet made several announcements this morning regarding scheduling changes for added functionality: two items originally scheduled for delivery in the 31 July, tape (Header Charges and Year-end Close) will now be delivered the second week in January; contracts and master/blanket orders will be delayed until April 1989; all other items that were scheduled for 28 February will be delivered the second week in January.

(3) According to Julie Donohue, VP of Development, Funds Control has been elevated in order of importance within Cullinet and several additional personnel have been hired for this project.

(4) Meetings will continue 19 July with Jim Dolan, Cullinet Development Group, to clarify questions on single point of entry, and a methodology to formalize Agency specifications for contracts.

CLAS was hoping for a single-entry joint system — but can work around it. They will also try to rework Cullinet's priorities to conform to CLAS' schedule.
